

CONTRACTOR'S INFORMATIONAL MEETING

SAFCA NATOMAS LEVEE IMPROVEMENT PROGRAM

**October 16, 2008
9:00 AM to 11:00 AM
DWR Resources Building Auditorium
1416 9th Street
Sacramento, CA**

The Sacramento Area Flood Control Agency (SAFCA) will be conducting an informational meeting on October 16, 2008 about the construction of the Natomas Levee Improvement Program (NLIP). General Contractors, Specialty Contractors, and Quality Control Subcontractors are invited to attend this meeting.

NLIP is a \$600 million levee improvement program for the Natomas Basin in Sacramento and Sutter Counties. The work includes raising existing levees, constructing new adjacent levees, deep cutoff walls, canal relocations and related construction. The next construction projects will be advertised for bidding in early 2009.

The Contractor's Informational Meeting will provide a description of the levee improvements, construction schedule and environmental and resource agency permit conditions. Representatives from SAFCA and the design consultant team will be available to answer questions.

For further information contact Bob Cermak, PB, phone (916) 567-2523, fax (916) 925-3517, email Cermak@pbworld.com.
