

**PUBLIC MEETING NOTICE:**

As part of the South Sacramento Streams Project, the U.S. Army Corps of Engineers, California Department of Water Resources and Sacramento Area Flood Control Agency propose to construct 3000 feet of floodwall, 100 feet of levee and 900 feet of retaining wall on the east side of Morrison Creek along the Union Pacific Railroad (UPRR) tracks. This project is planned for construction in 2012.

**The Draft Environmental Assessment and Initial Study (DEA/IS) was released for public review on July 7, 2011 and the 30 day public review period will close August 5, 2011.**

To hear more about this project a public meeting will be held on  
**July 21, 2011 at 6:00 pm at the Valley Hi-North Laguna Library,  
7400 Imagination Parkway, Sacramento, CA 95823**
