- Contract actions in support of the South Sacramento Streams Group Project; and
- Information updates from the U.S. Army Corps of Engineers (USACE):
  - South Sacramento Streams Group
  - Common Features General Re-evaluation Report

**2011 Accomplishments and Highlights**

2011 was a very successful and important year in advancing projects to improve protection provided the citizens of Sacramento from flooding. SAFCA worked diligently and closely with its project partner Agencies, the U.S. Army Corps of Engineers, the State of California Central Valley Flood Protection Board and the Department of Water Resources, the U.S. Bureau of Reclamation, and the floodplain managers, the City and County of Sacramento and the County of Sutter, in moving these projects forward. The attached powerpoint (Attachment 1) highlights some of the accomplishments in 2011.
