

The Vegetation Challenge Symposium

Index (Bolded names represent major subject experts)

- 15 foot vegetation free zone (see *vegetation-free zone*; see also *root-free zone*)
3: 1 slope projection (see *levee profile*)
404 permit: Panel 3
Adjacent levee (see *levees – overbuilt*)
Aerial video footage (see *levees – Sacramento area – case study*)
Aesthetics / recreation: H. Fargo; B. Bouley; C. Spoorenberg; R. Haselsteiner; S. Chainey; M. Nagy; Panel 1; Panel 2; Panel 3
Agricultural areas (see *levees – rural / agricultural*)
Agricultural easements (see *easements – agricultural*)
Armoring (see *bank protection; riprap; bank reinforcement by vegetation*)
Bang for the buck (see *risk reduction – prioritization*)
Bank protection / revetments / riprap (see also *vegetation – in levee construction / design*): J. DeVries; **D. Shields**; C. Peterson; J. Countryman; S. Chainey; E. Wallace / K. Rood; Q&A following Wallace and Rood; Panel 1
Bank reconstruction (see *levees – reconstruction / rebuilding*)
Bank reinforcement / stabilization (see also *bank protection; riprap*): D. Pezza; D. Gray;
Bank reinforcement by vegetation (see also *stability*): L. Harder 1; D. Pezza; **D. Gray**; J. Dwyer; E. Wallace / K. Rood; Q&A following Wallace and Rood; Panel 1
Berms – vegetation – white paper guidance: Panel 2
Berms – vegetation (see also *levee vegetation management zones; vegetation – in levee construction*): S. Chainey; E. Wallace / K. Rood; Panel 1; Panel 2; Panel 3
Bioengineering (see also *bank reinforcement by vegetation; vegetation – in levee construction*): Panel 1; Panel 3
Birds (see also *habitat; endangered species*): Q&A following Wallace and Rood; Panel 2
Blow down (see *windthrow*)
Boat wakes (see *erosion – wave impact*)
Boils: D. Pezza; R. Burnett; Panel 1; Panel 2
Bond funding (see *funding – bonds*)
Burrowing animals: B. Bouley; **D. Van Vuren**; D. Gray; D. Shields; C. Spoorenberg; R. Haselsteiner; R. Burnett; M. Nagy; Panel 1
Bypasses: J. Countryman; Panel 3
CALFED: Panel 2;
Canopy (see *trees – canopy*)
Case study (see *levees – Sacramento area – case study*)
CEQA: Panel 2; Panel 3
Channel capacity (see *conveyance*)
Clean Water Act (see also *environmental laws*): Panel 2; Panel 3
Clear cutting (see also *tree removal – staged*): D. Van Vuren; D. Pezza; D. Gray; J. DeVries; Panel 1; Panel 3
Climax community (see *vegetation – replacement*)
Collaboration / partnership: S. Stockton 1; L. Harder 1; S. Buer 1; K. Swanson; S. Chainey; Q&A following Wallace and Rood; Panel 1; Panel 2; Panel 3; S. Buer 2; L. Harder 2;
Common ground: S. Stockton 1; Panel 2; Panel 3

Comprehensive plan: Panel 3; S. Stockton 2
 Conflicting mandates: Panel 3
 Conveyance / hydraulic impacts: K. Swanson; **J. DeVries**; C. Spoorenberg; Panel 1; Panel 2; Panel 3
 Coppicing (see *trees – pruning*; see also *trees – sail area*)
 Corps – draft final white paper – Treatment of Vegetation within Local Flood-Damage-Reduction Systems: **D. Pezza**; K. Swanson; Panel 2; Panel 3
 Corps checklist/inspection program (see *inspection – Corps program*)
 Corps pilot inspection (see *pilot inspection*)
 Cost / benefit analysis (see also *risk reduction – prioritization; valuation of public trust resources*): Panel 2
 Costs – distribution among local / state / federal: Panel 2; Panel 3
 Costs – of tree / vegetation / root removal: B. Bouley; M. Stout; M. Nagy; E. Wallace and K. Rood; Q&A following Wallace and Rood; Panel 1; Panel 2
 Costs (also see *mitigation – environmental; levees – set back; vegetation management*)
 Critical habitat (see *habitat – critical*)
 Crown (see *trees – crown*)
 Cut-off wall: Panel 1
 CVPIA: Panel 2
 Dams – earthen – FEMA manual; **B. Bouley**; Panel 1
 Dams – earthen: D. Pezza; B. Bouley; D. Gray; M. Stout; Panel 1
 Debris – woody (see *woody debris*)
 Decertification (see *levees – decertification*)
 Delta Vision: Panel 2
 Downed trees (see *windthrow*)
 Drainage: D. Pezza; B. Bouley; C. Spoorenberg; R. Haselsteiner
 Dripline (see *trees – dripline*)
 Dutch levee standards; (see also *regulation – Dutch*)**C. Spoorenberg**
 Earthen dams (see *dams*)
 Easement area (see *vegetation-free zone*)
 Easements – agricultural: Panel 2
 Ecology – forest / restoration: Panel 1
 Ecology / ecosystem (see also *habitat*): **S. Chainey**; Panel 2; Panel 3
 Emergency response / repairs (see also *flood fight*): D. Pezza; **R. Burnett**; Panel 2; Panel 3
 Encroachments: B. Bouley; M. Stout; M. Nagy; E. Wallace / K. Rood; Panel 3
 Endangered species (see also *species recovery plans*): L. Harder 1; K. Swanson; B. Bouley; S. Chainey; M. Nagy; Q&A following Wallace and Rood; Panel 1; Panel 2; Panel 3; L. Harder 2
 Endangered Species Act: Panel 2; Panel 3
 Engineering manual
 Engineering solutions (see *structural solutions for tree hazards*)
 Environment (see also *habitat*): S. Stockton 1; L. Harder 1; H. Fargo; D. Pezza; K. Swanson; S. Chainey; Panel 3
 Environmental accounting: Panel 2
 Environmental compliance (see also *mitigation – environmental*): K. Swanson; B. Bouley; Group Q&A following Bouley; M. Nagy; Panel 3
 Environmental consultation (see also *permitting – expedited; environmental laws; environmental compliance*): D. Pezza; **Panel 2**; Panel 3

Environmental laws (see also *CEQA*; *Clean Water Act*; *CVPIA*; *Endangered Species Act*; *Fish and Game Code Section 1600*; *Fish and Wildlife Coordination Act*; *Migratory Bird Treaty Act*; *Section 7*; *NEPA*; *public trust*; *species recovery plans*; *safe harbor*)
Panel 1; **Panel 2**; Panel 3

ERDC (Engineer Research and Development Center): D. Pezza; Group Q&A following Bouley; M. Corcoran;

Erosion – wave / wake impact: D. Gray; **D. Sherman**; J. DeVries; S. Chainey; E. Wallace / K. Rood

Erosion / scour: L. Harder 1; D. Pezza; K. Swanson; B. Bouley; A. Berry; D. Gray; D. Sherman; J. DeVries; M. Stout; C. Spoorenberg; J. Dwyer; J. Countryman; R. Haselsteiner; R. Burnett; M. Nagy; Q&A following Wallace and Rood; Panel 1; Panel 2; Panel 3

ESA (see *Endangered Species Act*)

Failure – of slope: (see *slope failure*; *shear strength of banks / slopes*)

FEMA Manual 534 (see *dams – earthen – FEMA manual*)

FEMA remapping (see also *insurance*): Group Q&A following Bouley; Panel 2

Fish and Game Code Section 1600: Panel 2

Fish and Wildlife Coordination Act (see also *environmental laws*): Panel 2

Fish impacts: Panel 2; Panel 3

Flexibility – in Corps white paper implementation: Panel 3; L. Harder 2

Flood fight: D. Pezza; Group Q&A following Bouley; M. Corcoran; M. Stout; J. Countryman; R. Haselsteiner; **R. Burnett**; Q&A following Wallace and Rood; Panel 1; Panel 2

Flood Safe California: Panel 3

Flow (see *conveyance*)

Forest – riparian (see *riparian*)

Forest – urban (see *trees – urban*)

Fragility curve: D. Pezza; Panel 2

Funding – bonds: Panel 2

Funding (see also *costs*): K. Swanson; Panel 3

Future (see *implementation of white paper – next steps*; *research – future*; *planning – phased approach*)

Future studies (see *research – future studies*)

Geographic information systems (see *GIS*)

Geology (see *soils*)

German levee standards; (see also *regulation – German*); **R. Haselsteiner**

GIS: Panel 1; Panel 2

Grass: B. Bouley; D. Gray; V. Van Vuren; D. Shields; J. DeVries; M. Stout; C. Spoorenberg; R. Haselsteiner; Panel 1; Panel 2

Gray, Dr. Donald, H.; Dept. of Army, Waterways Experiment Station Technical Report REMR-EI-5: The effects of vegetation on the structural integrity of sandy levees: D. Pezza

Ground penetrating radar / GPR: A. Berry; Panel 1

Guidance (see *regulation*)

Habitat – critical: L. Harder 1; K. Swanson; Panel 2; Panel 3

Habitat – shaded riverine aquatic (see also *riparian habitat*): S. Chainey; Panel 2; Panel 3

Habitat (see also *environment; environmental laws; endangered species; riparian habitat; history – environmental*): L. Harder 1; D. Pezza; Group Q&A following Bouley; M. Corcoran; D. Van Vuren; S. Chainey; M. Nagy; Q&A following Wallace and Rood; Panel 1; Panel 2

Habitat conservation plans: Panel 3

Hazard (see *tree hazard; risk; failure – modes / causes related to trees*)

HCP (see *habitat conservation plans*)

History – dam construction: B. Bouley

History – environmental: J. Countryman; S. Chainey; Panel 2; Panel 3

History – flood control system; L. Harder 1; S. Buer 1; H. Fargo; **K. Swanson**; Group Q&A following Bouley; J. Countryman; Panel 3

History – hydraulic mining: J. Countryman

History – levee construction: D. Pezza; K. Swanson; M. Stout; J. Countryman; Panel 1;

History – Sacramento – flooding: Panel 2

History – vegetation on levees (see also *history – environmental; history – levee construction*): L. Harder 1; S. Chainey; J. Countryman; Panel 2; Panel 3

Hurricane Katrina (see *Katrina*)

Hydraulic impacts (see *conveyance*)

Hydraulic loading (see *phreatic surface*)

Implementing white paper – next steps / timeline (see also *planning – phased approach; policy development – future*): Panel 2; Panel 3; L. Harder 2; S. Stockton 2

Independent technical review (see *peer review*)

Infrared surveys: Panel 1

‘Inspectability’ – for levee defects: S. Stockton 1; B. Bouley; M. Corcoran; D. Pezza; D. Gray; M. Stout; R. Haselsteiner; R. Burnett; Panel 1; Panel 2; Panel 3

Inspection – Corps program (see also *pilot inspection; levees – unacceptable rating; levees – decertification; PL8499*): **D. Pezza**; K. Swanson; Group Q&A following Bouley; **M. Stout**; **M. Nagy**; Q&A following Wallace and Rood; Panel 3

Inspection – of roots (see *roots – inspection*)

Inspection – tree health / hazards: Panel 2

Inspection checklist (see *inspection – Corps program*)

Insurance: D. Pezza; Panel 2

Integrated management (see *multiple objective management*)

International regulation (see *regulation – Dutch; regulation – German; regulation – other states and countries; German levee standards; Dutch levee standards*)

Inventory – Corps (see also *inspection – Corps program*): Panel 2

Inventory – tree / vegetation / forest: Panel 1

IPET / ILIT (see - *Katrina / New Orleans - Independent Performance Evaluation Team (IPET) report / Independent Levee Investigation Team (ILIT) report*)

Jones Tract: K. Swanson

Katrina / New Orleans: S. Stockton 1; L. Harder 1; D. Pezza; K. Swanson; B. Bouley; M. Corcoran; D. Gray; **M. Stout**; Panel 2

Katrina / New Orleans: Independent Performance Evaluation Team (IPET) report / Independent Levee Investigation Team (ILIT) report: M. Corcoran; D. Gray

Land acquisition (see also *easements; encroachments*): Panel 2

Land side (see also *levee vegetation management zones*): E. Wallace / K. Rood; Q&A following Wallace and Rood; Panel 1; Panel 2; Panel 3

Lawsuits (see *legal challenge*)

Legal challenge: K. Swanson
 Levee access: D. Pezza; Panel 1; Panel 2
 Levee composition (see *levee construction*)
 Levee construction (see also *history – levee construction*): Panel 1; Panel 2
 Levee failure – evidence of cause: D. Pezza; B. Bouley; Group Q&A following Bouley;
 Levee failure – modes / causes related to vegetation: S. Stockton 1; A. Berry; D. Pezza;
 D. Gray; J. Dwyer; J. Countryman; R. Haselsteiner; Panel 1; Panel 2
 Levee prism (see *levee profile*)
 Levee profile: **E. Wallace / K. Rood**; Panel 2; Panel 3
 Levee template (see *levee profile*)
 Levee vegetation management zones: B. Bouley; Panel 1; Panel 2; Panel 3
 Levees – rural / agricultural: Group Q&A following Bouley; M. Stout; R. Haselsteiner; J.
 Dwyer; Q&A following Wallace and Rood; Panel 2; Panel 3
 Levees – certification / decertification: K. Swanson; Panel 2; Panel 3
 Levees – incorporating vegetation (see *vegetation – in levee construction*)
 Levees – integrity / reliability / performance: S. Stockton 1; D. Pezza; B. Bouley; D.
 Gray; Panel 2
 Levees - minimum requirements / national standards: S. Stockton 1; **D. Pezza**; Group
 Q&A following Bouley; Panel 2; Panel 3
 Levees – overbuilt / wide / adjacent / fat: D. Pezza; E. Wallace / K. Rood; Panel 2; Panel 3
 Levees – reconstruction / rebuilding: M. Nagy; E. Wallace / K. Rood; Q&A following
 Wallace and Rood; Panel 1
 Levees – relocation (see also *levees – set back*) Panel 1
 Levees – Sacramento area – case study: **E. Wallace / K. Rood**; Panel 3;
 Levees – set back – cost: Panel 2
 Levees – set back; D. Shields; J. Countryman; Panel 2; Panel 3
 Levees – unacceptable rating (see also *inspection – Corps program; levees –
 decertification*): D. Pezza; Panel 2; Panel 3
 Levees – urban: H. Fargo; Group Q&A following Bouley; Q&A following Wallace and
 Rood; Panel 2; Panel 3
 Liability (see also *Paterno decision*): Panel 2
 LIDAR: Panel 1
 Listed species (see *endangered species*)
 Literature review: **M. Corcoran**
 Maintenance (see *operations & maintenance*)
 Maintenance deficiencies (see *levees – certification / decertification*; see also *inspection
 – Corps program*)
 Migratory Bird Treaty Act (see also *environmental laws*): Panel 2
 Minimum requirements (see *levees – minimum requirements*)
 Missouri River Flood 1993: (see *woody corridors*) J. Dwyer; Panel 1
 Mitigation – environmental: Panel 2; Panel 3
 Mitigation – environmental – costs: Panel 2; Panel 3
 Mitigation – of tree safety hazards (see also *structural solutions*): A. Berry; D. Gray; C.
 Spoorenberg; R. Haselsteiner; C. Peterson; Panel 1
 Mitigation – un-‘mitigable’ habitat: Panel 2
 Monitoring – slope (see also *stability*): D. Gray; Panel 1
 Monitoring – vegetation (see also *tree hazard – inspection / rating; safety review –
 Dutch; remote sensing*): Panel 1

Multiple objective management: S. Chainey; Q&A following Wallace and Rood; K. Swanson; Panel 2

Multipurpose project or design (see *multiple objective management*)

National levee safety program – Corps: Panel 2

N value (see *conveyance / hydraulic impacts*)

NEPA (see also *environmental laws*): Panel 2

New Orleans (see *Katrina*)

Operations & Maintenance(O&M): D. Pezza; K. Swanson; B. Bouley; M. Stout; R. Haselsteiner; Panel 3

Operations & Maintenance manuals: Panel 3

Open space: Panel 2

Overtopping: B. Bouley; D. Gray; J. Dwyer; R. Haselsteiner; R. Burnett; Panel 1; Panel 2

Partnership (see *collaboration*)

Paterno decision: K. Swanson

Peer review – of Corps vegetation standards and policies: S. Stockton 1; D. Pezza; Panel 3; L. Harder 2; Stockton 2

Permeability (see *soils – permeability*)

Permitting – expedited: Panel 2; Panel 3

Phreatic surface / hydraulic loading: B. Bouley; D. Gray; D. Shields; J. Dwyer; S. Chainey; Panel 1

Physical measures (see *structural solutions for tree hazards*)

Pilot inspection – Sacramento area (see also *inspection – Corps program*): **M. Nagy**

Piping (see also *through levee seepage; root decay; Gray, Dr. Donald, H.; ERDC*); K. Swanson; A. Berry; **D. Gray**; D. Shields; Panel 1; Panel 2

PL 84-99 (see also *inspection – Corps program*): Group Q&A following Bouley; J. Dwyer; M. Nagy; Q&A following Wallace and Rood; Panel 2; Panel 3

Planning – phased approach: Panel 2; Panel 3; L. Harder 2; S. Stockton 2

Planning – short term and long term (see *planning – phased approach*)

Policy development – future (see also *implementing white paper – next steps / timeline; planning – phased approach*): Panel 2; **Panel 3**; S. Buer 2

Pressure relief wells: Panel 2

Pressure transducers: Panel 1

Prioritization (see *risk reduction – prioritization*)

Projected slope (see *levee profile*)

Propositions 1E and 84 (see *funding – bonds*)

Pruning (see *trees – pruning*)

Public outreach / public input: S. Stockton 1; S. Buer 1; D. Pezza; Panel 3

Public protest: C. Spoorenberg; Panel 1

Public safety: S. Stockton 1; L. Harder 1; H. Fargo; D. Pezza; K. Swanson; Group Q&A following Bouley; M. Corcoran; C. Spoorenberg; R. Haselsteiner; Q&A following Wallace and Rood; Panel 1; Panel 2; Panel 3; L. Harder 2; S. Stockton 2

Public trust (see also *valuation of public trust resources*): K. Swanson; Panel 2

Quality of life (see *aesthetics / recreation*)

Reclamation Board – K. Swanson

Reclamation districts – funding / implementation of white paper: Panel 3

Reconstruction / rebuilding (see *levees – reconstruction / rebuilding*)

Recreation (see *aesthetics*)

Redesign of system (see also *systems approach*): **K. Swanson**; Group Q&A following Bouley; Panel 3

Regeneration of vegetation (see *vegetation – replacement*)

Regional policy: H. Fargo; D. Pezza; M. Corcoran; A. Berry; C. Peterson; D. Shields; M. Stout; M. Nagy; Panel 1; Panel 2; Panel 3

Regional variances on vegetation standards; (see also *inspection – Corps program, PL 84-99*): D. Pezza; Panel 2; Panel 3; L. Harder 2

Regulation – California State: Group Q&A following Bouley; Panel 2; Panel 3

Regulation – Dutch; M. Corcoran; **C. Spoorenberg**

Regulation – federal (see also *conflicting mandates*): S. Stockton 1; **D. Pezza**; Panel 2

Regulation – German; M. Corcoran; **R. Haselsteiner**

Regulation – other states and countries: B. Bouley; M. Corcoran; Panel 1

Reinforced earth (see also *bank reinforcement by vegetation*): Panel 1

Relative risk (see also *risk assessment; risk reduction – prioritization*): D. Pezza

Relocation of levees (see *levees – relocation*; see also *levees – setback*)

Remapping (see *FEMA*; see also *levees – certification / decertification; insurance*)

Remote sensing (see also *infrared; LIDAR; pressure transducers*): Panel 1

Removal of trees (see *tree removal*)

Replacement of vegetation (see *vegetation – replacement*)

Research – future studies: S. Stockton 1; J. Dwyer; **Panel 1**; Panel 2; Panel 3

Restoration of habitat (see *mitigation – environmental; vegetation – replacement*)

Retaining walls: Panel 1

Revegetation (see *mitigation – environmental; vegetation – replacement*)

Revetments (see *bank protection; riprap*)

Riparian forest – remnant (see also *history – environmental*): **S. Chainey**; E. Wallace / K. Rood; Panel 2; Panel 3

Riparian habitat (see also *habitat; habitat – shaded riverine aquatic; riparian forest – remnant; history – environmental*): L. Harder 1; D. Pezza; S. Chainey; Panel 2; Panel 3

Risk assessment: Panel 2

Risk assessment – Dutch (see *safety review – Dutch*)

Risk reduction – prioritization: L. Harder 1; S. Buer 1; K. Swanson; Group Q&A following Bouley; M. Nagy; Panel 1; **Panel 2**; Panel 3; L. Harder 2; S. Stockton 2

Risk reduction / risk management: S. Stockton 1; L. Harder 1; K. Swanson; D. Pezza; Panel 1; Panel 2; Panel 3; S. Stockton 2

Risk-based planning: S. Stockton 1

Rodent holes (see *burrowing animals*)

Root architecture: **A. Berry**; Panel 1

Root ball (see also *windthrow*): B. Bouley; A. Berry; C. Peterson; Panel 1

Root barriers (see also *structural solutions for tree hazards*): Panel 1

Root decay: B. Bouley; Group Q&A following Bouley; A. Berry; D. Gray; M. Stout; C. Spoorenberg; J. Dwyer; R. Haselsteiner; R. Burnett; Panel 1; Panel 2

Root reinforcement (see *soil reinforcement by vegetation*)

Root-free zone: D. Pezza; M. Nagy; E. Wallace / K. Rood; Panel 2

Roots – effect on soil / levees (see also *root decay*): B. Bouley; R. Haselsteiner

Roots – growth / distribution patterns (see also *root architecture*): D. Pezza; B. Bouley; **A. Berry**; C. Peterson; D. Shields; M. Stout; Panel 1

Roots – inspection - ground penetrating radar: Panel 1

Roots – mapping (see *trenching*): Panel 1
 Roots – removal / excavation (see also *tree removal*; *levees – reconstruction / rebuilding*): Group Q&A following Bouley; M. Stout; E. Wallace / K. Rood
 Roots – strength / breakage: A. Berry; D. Shields; C. Peterson
 Roughness (see *conveyance*)
 Sacramento area levees (see *levees – Sacramento area – case study*)
 Safe harbor agreements: Panel 3
 Safety review – Dutch (see also *tree hazard – inspection*): C. Spoorenberg
 Sail area (see *trees – sail area*)
 Saturation (see *soils – permeability*; *phreatic surface*)
 Scour – around trees (see *trees – undermined*)
 Scour / erosion (see *erosion*)
 Section 1600 (see *Fish and Game Code Section 1600*)
 Section 7 (see also *Endangered Species Act*; *environmental laws*): Panel 2; Panel 3
 Seepage (see also *underseepage*, *through levee seepage*): B. Bouley; D. Shields; M. Stout; C. Spoorenberg; J. Countryman; R. Haselsteiner; R. Burnett; M. Nagy; Panel 1; Panel 2
 Set back levees (see *levees – set back*)
 Shear strength of banks / slopes: (see also *slope failure*; *stability – of banks and slopes*)
 D. Gray; D. Shields; C. Spoorenberg
 Slope failure; D. Gray; D. Shields; C. Peterson; R. Burnett; Panel 1
 Slope monitoring (see *monitoring – slope*)
 Slope projection (see *levee profile*)
 Slope stability (see *stability*)
 Slopes (see *levee vegetation management zones*; *land side*; *waterside*)
 Slurry wall: D. Pezza; A. Berry; J. Countryman; R. Haselsteiner; M. Nagy; Panel 1; Panel 2; Panel 3
 Soil reinforcement by vegetation (see *bank reinforcement by vegetation*)
 Soils – Central Valley: Panel 2
 Soils – cohesion; D. Shields; R. Haselsteiner
 Soils – compaction / density: B. Bouley; Panel 1
 Soils – liners: R. Haselsteiner
 Soils – permeability / saturation: D. Shields; R. Haselsteiner
 Soils: A. Berry; D. Van Vuren; D. Gray; C. Peterson; D. Shields; J. Dwyer; Panel 1
 Species recovery plans: Panel 3
 SRA habitat (see *habitat – shaded riverine aquatic*)
 Stability – of banks and slopes: (see also *monitoring – slope*; *bank reinforcement by vegetation*): D. Pezza; B. Bouley; D. Gray; D. Shields; M. Stout; C. Spoorenberg; R. Haselsteiner; E. Wallace / K. Rood; Panel 1; Panel 2
 Stabilization of banks by vegetation (see *bank reinforcement by vegetation*)
 Staged removal of trees (see *tree removal – staged*, see also *clear cutting*)
 State Plan of Flood Control: Panel 3
 Streamlined consultation (see *permitting – expedited*)
 Structural integrity (see *levees – integrity / reliability / performance*)
 Structural solutions for tree hazards (see also *mitigation – of tree hazards*; *levees – overbuilt*; *bank protection*; *trees – buttressing*; *slurry wall*; *cut-off wall*; *pressure relief wells*; *retaining walls*; *root barriers*; *wind deflection*): **R. Haselsteiner**; E. Wallace / K. Rood; Panel 1; Panel 3

Sustainability (see also *systems approach*): S. Stockton 1; D. Pezza; Group Q&A following Bouley; Panel 3

System approach: S. Stockton 1; D. Pezza; K. Swanson; Group Q&A following Bouley; M. Corcoran; C. Spoorenberg; M. Nagy; Panel 1; Panel 2; Panel 3; S. Stockton 2

Through levee seepage (see also *seepage; piping*): D. Pezza; K. Swanson; A. Berry; D. Gray; Panel 2

Timing issues (see also *planning – phased approach; implementing white paper – next steps / timeline; permitting – expedited*): Panel 2; Panel 3

Title 23 (see regulation – *California*)

Tree failure (see *failure – modes / causes related to vegetation*)

Tree hazard – inspection / rating (see also *safety review – Dutch; monitoring – vegetation*): Panel 1

Tree hazards – solutions (see *mitigation – of tree hazards; structural solutions for tree hazards; vegetation management*)

Tree removal – staged (see also *clear cutting; vegetation management*): A. Berry; Panel 1; Panel 2; Panel 3

Tree removal: B. Bouley; M. Stout; Panel 1; Panel 2

Trees – canopy: A. Berry; M. Stout; S. Chainey; E. Wallace / K. Rood; Q&A following Wallace and Rood

Trees – crown: A. Berry; C. Peterson; M. Stout; C. Spoorenberg

Trees – death / replacement (see *vegetation – replacement*)

Trees – dripline: D. Pezza; B. Bouley; A. Berry; D. Shields

Trees – pre-existing when levees were turned over to state (see *history – vegetation on levees*)

Trees – pruning (see also *mitigation – of tree hazards*): A. Berry; D. Gray; C. Peterson; C. Spoorenberg; M. Nagy; E. Wallace / K. Rood; Panel 1; Panel 2; Panel 3

Trees – sail area (see also *windthrow*): D. Gray; **C. Peterson**; E. Wallace / K. Rood; Panel 1

Trees – stand density: C. Peterson

Trees – thinning (see *tree removal – staged; mitigation – of tree hazards*)

Trees – trunk breakage: C. Peterson

Trees – undermined: B. Bouley; E. Wallace / K. Rood; Panel 1

Trees – urban: H. Fargo; C. Spoorenberg; R. Haselsteiner; Panel 1

Trenching: **A. Berry**; M. Corcoran; D. Gray; D. Shields; M. Stout; Panel 1

Turf (see *grass*)

Unacceptable rating (see *levees – unacceptable rating*)

Uncertainty – management of (see *risk*)

Undermined / undercut trees (see *trees – undermined*)

Underseepage: D. Pezza; K. Swanson; A. Berry; D. Gray; Panel 2

Uprooting (see *windthrow*)

Urban (see *levees – urban; trees – urban*)

Valuation of public trust resources: Panel 2

Variance (see *regional variances on vegetation standards*)

Vegetation – health (see *monitoring–vegetation*)

Vegetation – in levee construction / design: C. Chainey; E. Wallace and K. Rood; Panel 1; Panel 3

Vegetation – monitoring (see *monitoring – vegetation*)

Vegetation – preexisting when levees were turned over to state (see *history – vegetation on levees*)

Vegetation – replacement (see also *ecology – forest / restoration*): Panel 1; Panel 2; Panel 3

Vegetation – restoration (see *mitigation – environmental; vegetation – replacement*)

Vegetation – self-sustaining (see *vegetation – replacement*)

Vegetation armoring (see *bank stabilization by vegetation*)

Vegetation management – costs: Panel 2

Vegetation management (see also *mitigation – of tree hazards*): B. Bouley; M. Corcoran; D. Gray; C. Peterson; C. Spoorenberg; R. Haselsteiner; Panel 1; Panel 2

Vegetation – free zone: D. Pezza; M. Nagy; E. Wallace / K. Rood; Panel 2

Video footage of Sacramento levees (see *levees – Sacramento area – case study*)

Wake / wave erosion (see *erosion – wave impact*)

Waterways Experiment Station (see *Gray, Dr. Donald, H.; ERDC*)

Water side – below water line (see *levee profile*)

Water side (see also *levee vegetation management zones*): L. Harder 1; E. Wallace / K. Rood; Q&A following Wallace and Rood; Panel 1; Panel 2; Panel 3; L. Harder 2

White paper (see *Corps – draft final white paper – Treatment of Vegetation within Local Flood-Damage-Reduction Systems*)

Wide levee (see *levees – overbuilt / wide*)

Wind deflection / windbreak: C. Peterson; S. Chainey; Panel 1

Windthrow: B. Bouley; Group Q&A following Bouley; A. Berry; M. Corcoran; D. Gray; **C. Peterson**; M. Stout; C. Spoorenberg; R. Haselsteiner; S. Chainey; Panel 1

Woody corridors: **J. Dwyer**; Panel 1

Woody debris: Panel 1; Panel 3

Zones (see *levee vegetation management zones*)
